

GENERAL INFORMATION | AL-QUWEIRA PV PLANT

Category	Largest PV Project
Focus	PV
Start up	2017
Capacity	103 MWp
Energy generation	227 GWH
Features	Tracking System
Project Location	
Country	Jordan
Region	Jordan near Aqaba-Al Quweira

PROJECT INFORMATION

Category	Largest PV Project in Jordan 2017
Owner	INGETEAM POWER TECHNOLOGY S.A. - fastest installation and commissioning supplied in Jordan - best and robust IP protection system for adverse climatic
Conditions	- uses three square kilometers of land to produce over 2,5% of the total national electrical production - able to supply energy to more than 51,000 houses - project valued over 120 million USD
Involved Companies	
Modules from	JINKO SOLAR
Inverters from	INGETEAM
BOS components	INGETEAM, IDEEMATEC
Project developer/EPC	TSK-ENVIROMENAJV
Installer(s)	TSK-ENVIROMENAJV
Operator	Jordan Ministry of Energy and Mineral Resources (MEMR)

TECHNICAL PARAMETER

Project Kick-Off	01.01.2017
Date of grid connection	15.07.2017
Capacity	103 MWp
Energy generation [MWh]	227 GWH/a
CO ₂ Emission saving	148,000 t/a
Features	-Tracking System - Fixed Structure
Application	- Utility-scale - Ground-mounted

FINANCIAL PARAMETER

Financed by Abu Dhabi Fund for Development

COMPANY INFORMATION

Company INGETEAM POWER TECHNOLOGY S.A.
Year of foundation 1972
Company Size 250 and (4000 employees around the world)
Country of headquarters SPAIN
