Inventux Technologies AG

General information				
Core business	Inventux Technologies AG is a solar company specialized on development, manufacturing and commercialization of micromorphous thin film modules. As the first company in Europe, Inventux started the mass production of silicon based micromorphous thin film modules at its head office in Berlin at the end of 2008. Aim of the company is to become a world wide leader of cost efficient thin film PV modules based on a future-proof mass production.
